THE BRACING SMELL OF COOL OCEAN AIR**

Whether you live in Cape Cod or California, Wisconsin or Waco, our Americana Collection™ Cedar Shingles will add a timeless elegance to your home reminiscent of traditional, early American construction. From the very first settlements founded on the Atlantic coast hundreds of years ago, our finest homes were often sided with individual shingles, hand-sawn from the heartwood closest to the center of the tree for strength and durability.

Today, you can achieve that same look and feel of natural wood shingles in a high performing polymer product that replicates the aesthetic appeal with authentic cedar textures, but far surpasses real wood in terms of strength, low maintenance and durability.

Open your eyes to a new world of style, performance and unsurpassed beauty with Americana Collection Single 7" Cedar Shingles.

SINGLE 9" HAND-SPLIT SHAKES

**RUGGED INDIVIDUALITY
RUSTIC BEAUTY
AUTHENTIC TEXTURES**

Some houses have a tendency to blend into the background, becoming just another street number we drive by on the way to the next block. Then there are homes that stand out among the crowd. People don't drive by. They stop and stare. Americana Collection Hand Split Shakes can have that kind of affect on a neighborhood.

Each Shake looks and feels like it was sawn and painstakingly shaped out of top grade timber, then applied to the wall by a craftsman, piece by piece. Its staggered edge appearance recreates the random look of hand cut wood.

The rugged beauty evident in every panel is impossible to hide. Stand out in a crowd with Americana Collection Hand-Split Shakes.

SIMPLE. HONEST. STRONG.**

Whether your home is in a secluded neighborhood or on the main road of a bustling city, The Americana Collection of Shakes, Shingles and Scallops can add a small town flavor that calls out a warm welcome to friends, relatives and passers-by.

These hardworking, durable siding panels combine the realistic profiles and rough-cut woodgrain of real cedar, with the low-maintenance, long-lasting weatherability of the latest in polymer technology and high performance design.

6-1/4" SCALLOPS

RESISTS DENTS AND DINGS

Each panel is injection molded from a composite polymer material to give it extra strength and make it resistant to dents and dings.

VIRTUALLY NO MAINTENANCE

Unlike special shapes made from wood, Americana Collection Shakes, Shingles and Scallops never need to be refinished, saving you valuable time and money on scraping, sanding and painting. And, unlike wood, Americana Collection products are impervious to termites and other wood-eating insects.

BEAUTIFUL WOOD-LIKE FINISH

Panels feature a deep detailed grain that looks like real cedar, and a random pattern and varying gap design helps hide the seams. The longer single-course structure looks more natural on the wall, and minimizes installation waste.

INSTALLS EASILY AND SECURELY

An exclusive nail hem in conjunction with a unique continuous locking system helps ensure that once the panels are up, they'll stay up.

WARRANTED FOR PERFORMANCE

Americana Collection Shakes, Shingles and Scallops carry a Limited Lifetime Transferable Warranty with 10 Year Fade Resistance. It's your assurance of product quality and performance.
