

PUT AN END TO COSTLY PAINTING AND REPAIR PROBLEMS

THE VYNA-FUSED® PROCESS

THE STRENGTH OF STEEL FUSED WITH LOW-MAINTENANCE VINYL

Installing **CraftMark** Classic Steel Siding on the exterior of your home is a smart decision and a wise investment. Backed and warranted* by an industry leader, **CraftMark** Classic Steel Siding is made from one of America's most trusted materials, steel. Its surface is factory coated with the VYNA-FUSED® modified vinyl finish, giving it the performance benefits of both steel and vinyl. This means you get a tough, rugged siding panel that resists weathering, saving you time and money on painting and repairs.

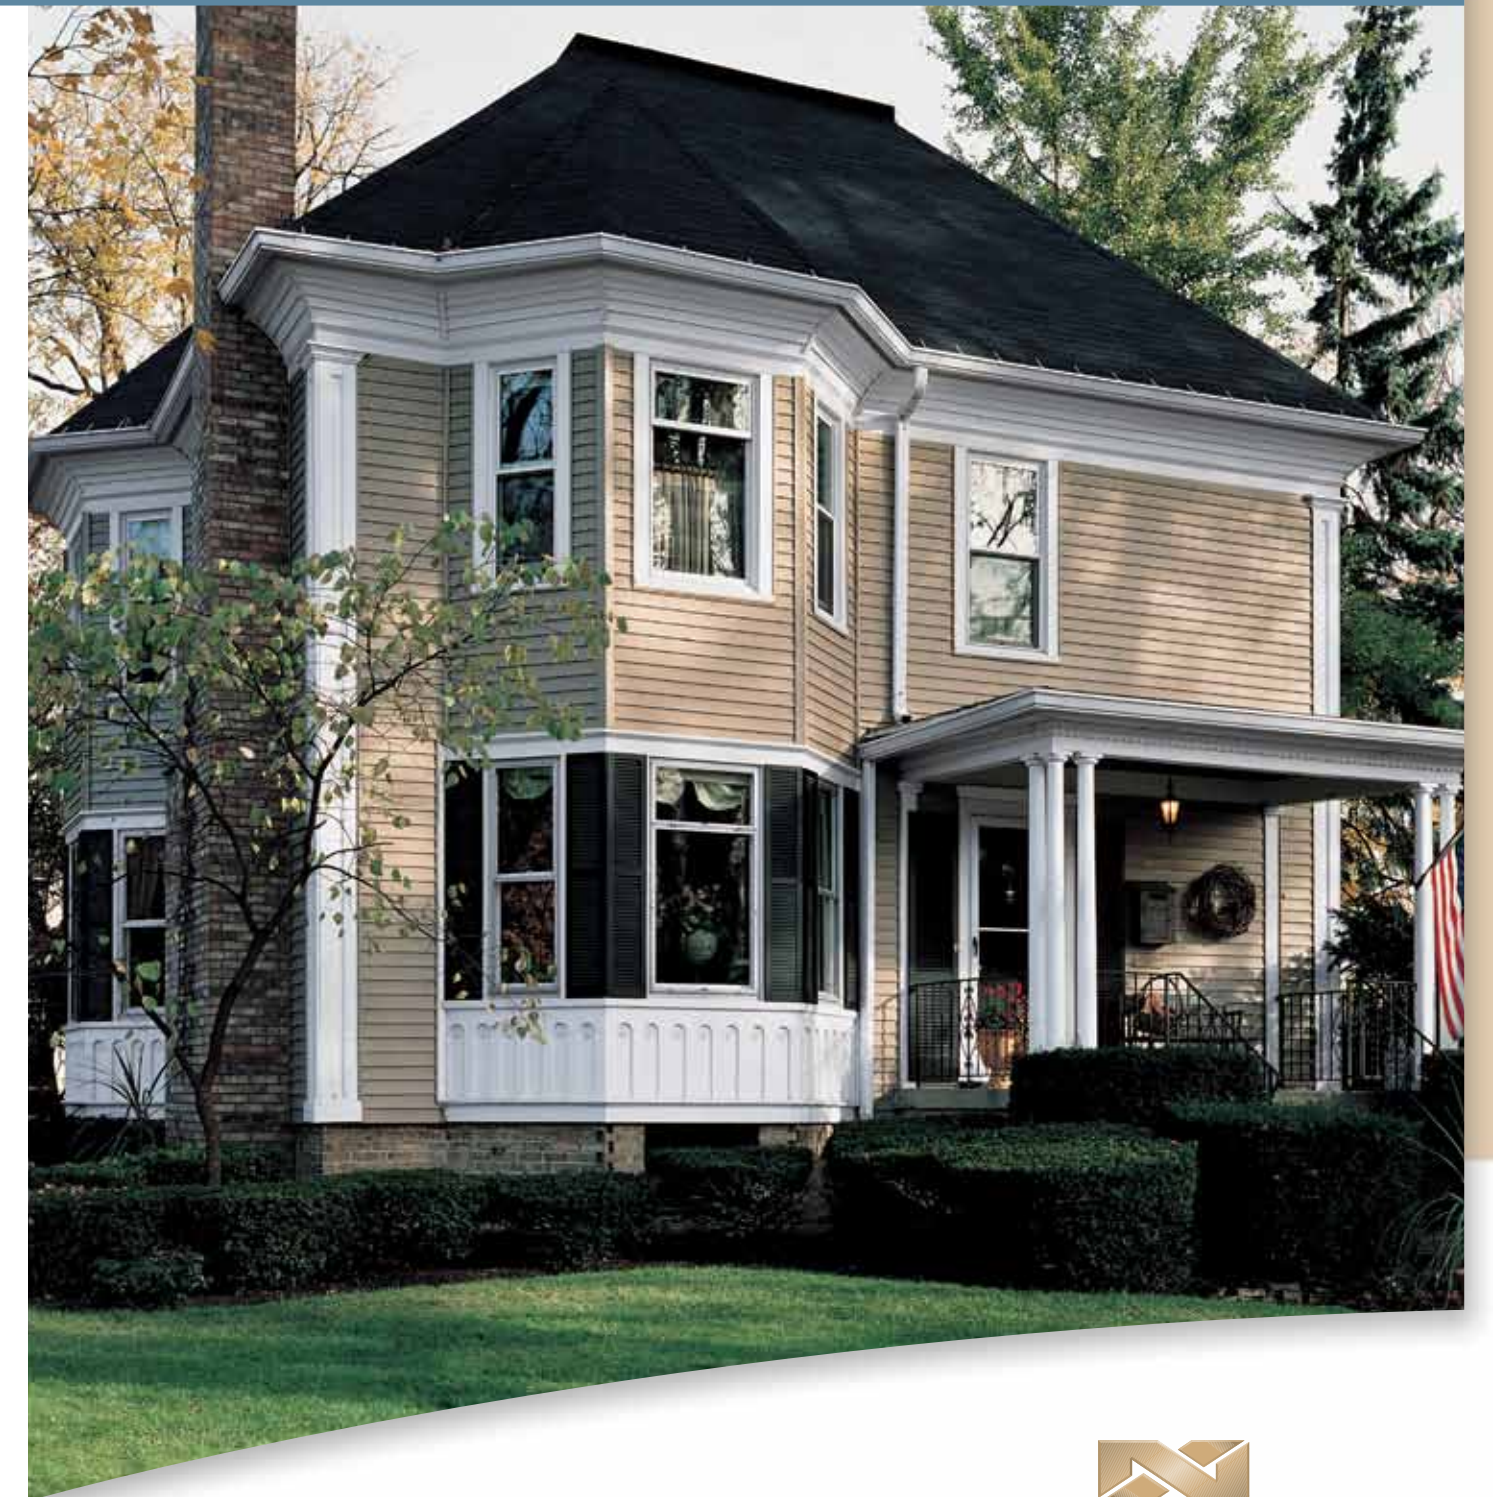

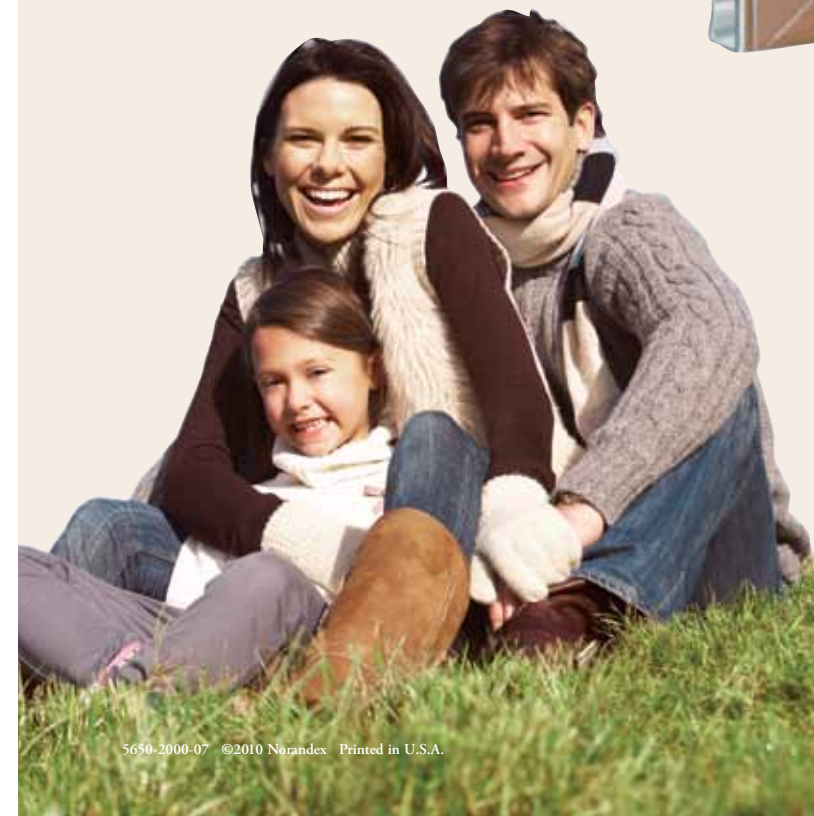

The chart below compares exterior cladding materials. Look at it closely and you'll understand why more and more homeowners are looking into **CraftMark** Classic Steel Siding.

BEAUTIFY & PROTECT
YOUR HOME

CraftMark Classic VYNA-FUSED® Steel Siding combines the strength of steel, the low-maintenance advantages of vinyl and the beauty of natural wood. For not much more than the cost of ordinary vinyl siding you can give your home solid protection that will last a lifetime. And you'll leave exterior home maintenance problems behind.

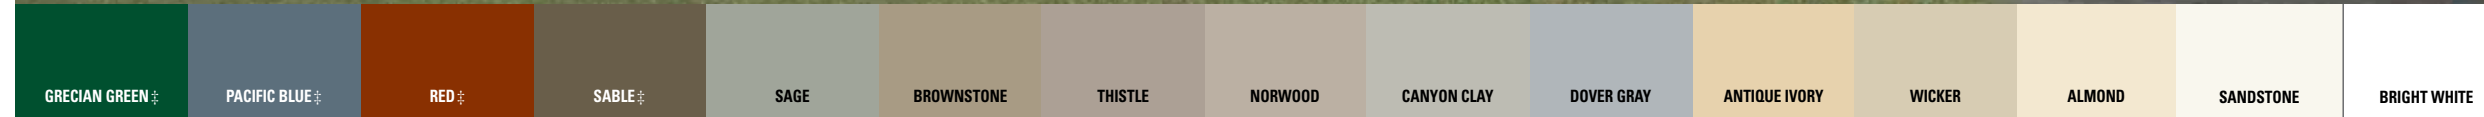

CraftMark Classic Steel siding is hot-dipped and totally immersed in a protective zinc coating. Its special vinyl coating is then roll-applied and heat-fused for another layer of protection. It's warranted for life against rusting, cracking, chipping, peeling, blistering and flaking. It won't warp like ordinary siding and it's even warranted against damage due to hail.* **CraftMark** Classic Steel Siding increases the value of your home and gives you the natural look of wood.

Consider the time and the money you'd invest in maintaining your old siding for another 10 or 20 years. You'll discover that **CraftMark** Classic VYNA-FUSED® Steel Siding is the best value for the life of your home. And you'll be left with more leisure time.

A COLOR AND STYLE TO SUIT EVERY TASTE

Whether your home is a stately Victorian or a contemporary ranch, **CraftMark** Classic Steel Siding is the right choice. It comes in a variety of styles, beautiful colors and is complemented by a full line of custom, color-coordinated accessories and trim.

CRAFTED LIKE NO OTHER

VINYL EXTERIOR WITH A BACKBONE OF STEEL

CraftMark Classic Steel Siding combines the low-maintenance advantages of vinyl with the strength and durability of steel. It's resilient enough to bounce back from bumps and knocks. And that's not all. It's fire and termite resistant and unlike most other siding materials, it will withstand Mother Nature's harshest tests... time and weather.

EASILY MAINTAINED WITH A GARDEN HOSE

An occasional rinse with the garden hose is all that's necessary to keep **CraftMark** Classic Steel Siding looking like new. Wood siding requires regular sanding, masking and painting. Other materials call for regular patching or replacement. Whether you hire professionals or you do it yourself, there's no avoiding the nuisance and expense.

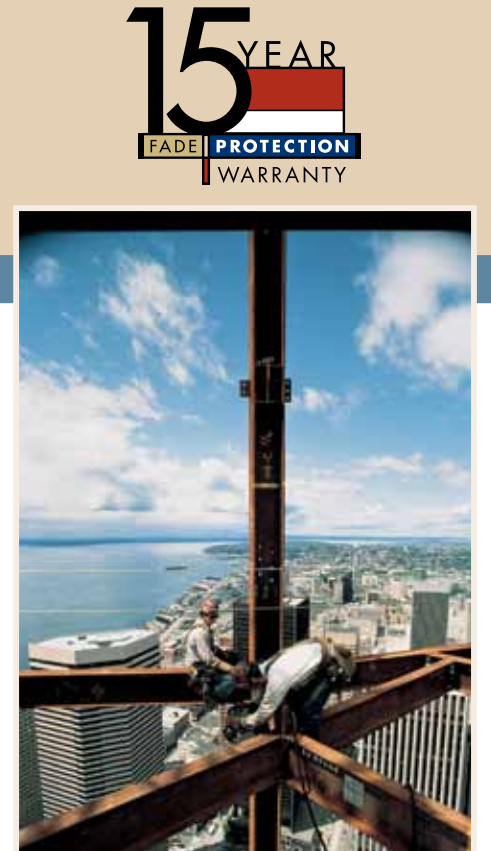

STEEL SIDING PAYS DIVIDENDS

Not only will **CraftMark** Classic Steel Siding help increase the value of your home, it will enhance your home's appearance and save you years of costly maintenance since you'll never have to paint your house again. When you add up all of the advantages, re-siding your home with **CraftMark** Classic Steel Siding will prove to be a very wise investment.

SIDING THAT LASTS A LIFETIME

CraftMark Classic Steel Siding will give you a lifetime of satisfaction. That's why we back it with our Lifetime Limited Transferable Warranty. Your home is protected against rusting, cracking, chipping, peeling, blistering and flaking, and you also get a 50-year Limited Warranty against hail damage.*
