Think outside.

Captivating form. Compelling function. Portsmouth Shake®

8' LONG LENGTH CEDAR SHAKE

8' Long Length Cedar Shake

Richer texture provides lasting appeal.

The exterior of a home has enhanced appeal when the design is a result of a play with light and shadow. The double-texturing process, exclusive to **8' Long Length Cedar Shake**, creates a richer, more realistic profile with a virtually seamless look that makes your design truly fascinating. The additional length is also more sustainable, providing a faster install with less jobsite material waste.

TRADITIONAL CEDAR SHAKE

Cedar Shake

Give your home classic character.

The natural warmth and character of **Portsmouth Shake® Cedar Shake** provides that much-desired classic shake appeal. This conventional shingle style, when combined with stone and clapboard, delivers a stunning and inviting exterior that can change the pace of a design.

HAND-SPLIT SHAKE

A natural look can create unparalleled style.

The process of hand splitting shingles produces an enchanting, rustic texture in each individual piece. The rich, deeply ingrained surfaces of **Hand-Split Portsmouth Shake** are patterned from real split cedar.

With the same authentic presence and intense shadows as hand-split wood, it provides immense dimension and gives a home an extremely interesting appearance.

STAGGERED SHAKE

Details can bring balance, order and grace to your home.

Create unprecedented visual interest with **Portsmouth Staggered Shake**.

Its varied appearance can add dimension, tie gables and other elements into your overall design, or provide a dramatic contrast to stone or clapboard. Staggered Shake can add impact by endowing your home the richness of real wood or unify it with a sense of simplicity.

Attention to detail gets attention.

Portsmouth Perfection Shake can give you the look of homes found on the coast of New England without the costly maintenance associated with real wood.

Its subtle grain provides a natural effect with nicely defined shadow lines.

Portsmouth Shake Half Rounds are distinguishing exterior elements that give a home genuine appeal. From the simplest cottage to a grand Victorian masterpiece, these charming curved details are the perfect way to make your home stand out.

Portsmouth Shake now features the Assurance™ Fastening System.

The components of the **Assurance™ Fastening System** are engineered to provide not only a faster, easier installation but one that is also more secure, with precisely aligned panels. Every panel includes a temperature gauge, which ensures an accurate install in any climate.

Available on all Shake profiles.

Nailing Guides.
Precise nail positioning ensures ideal panel performance.

Depth Guard.
Controlled nail depth means smoother, straighter walls.

Centering Hole.
Locked in positioning eliminates panel shifting left to right.

Available on 8' Long Length Cedar Shake.

Full-Panel Hold.
Snaps panels in place for faster, easier and more secure installation.

End-to-End Overlap.
Maintains alignment and ensures virtually seamless look. (Also available on Staggered Shake.)

Let your home reflect your personality.

From cool neutrals to the warm, vibrant hues of the **Coastal Shores™ Collection**, Portsmouth Shake offers a beautiful range of shades to inspire you. This broad palette combines gorgeously with stone and cladding and allows you to create countless complementary color combinations to express your personal style.

COASTAL SHORES™
COLLECTION

Lighthouse Red Cabin Regatta

All Portsmouth Shake® products are available in ten standard colors. Portsmouth Traditional Cedar Shake and 8' Long Length Cedar Shake also come in Coastal Shores™ colors.

WEATHERED COLORS

Gray Moss Pacific Redwood Sandalwood

Weathered colors are currently available only in Hand-Split Portsmouth Shake®. Coming later 2010: 8' Long Length Cedar Shake.

Exterior Portfolio® by Crane is more than beautiful, long lasting exterior products for your home. We believe in a sustainable future for everyone. For you, this means a home made from environmentally preferred materials. For us, it means cladding products offering benefits such as durability and low maintenance. All of our products provide a long service life that requires no harmful finishes. Because our commitment to the environment stretches from our home to yours, we engineer sustainable benefits into our product development process through innovations such as our **SmartTRACK™** moisture management system and our energy-saving, **SOLID CORE™** insulation.
